

****ASPHALT MAINTENANCE****

Monday, October 28th, Ivymount & Glenelder Terrace will be having asphalt maintenance work.

Tuesday, October 29th, Perennial Lane, Association Office, Windmill Pool Parking Lot and Access Road will be having asphalt maintenance work.

There will be no access to the street being serviced once work has started and the street will be closed for 24 hours (7:00AM to 7:00AM).

Vehicles must be moved from assigned/reserved and curbside parking spaces and streets by 7:00 AM on the day of service. This will be enforced by towing.

Vehicles that are parked in driveways or garages but need to be used on the day of service or the following day must be moved by 7:00 AM, the morning of service to avoid being land locked. Vehicles parked in driveways or garages will not be able to leave after the asphalt maintenance service has started and will remain landlocked until 7:00 AM the following morning.

(Please note that all work is dependent on weather conditions. Rain on the day your street is scheduled to be serviced will delay this work. You will be notified of a make-up date.)
